

SGEM Vienna Green Sessions 2022 "Green Science for Green Life" - proceedings indexed by Scopus, WoS, EBSCO, Crossref, ProQuest etc.

12 December - 15 December 2022

XXII SGEM Vienna Green Scientific Sessions "Green Science for Green Life" are focused on **Global Warming, Climate Change, CO₂ Reduction, Biodiversity, and Green Technologies for a Sustainable Future.**

Dear colleagues,

We are happy to remind you that the registrations for the XXII SGEM Vienna Green Sessions 2022 are open. The conference sessions are organized by SWS Scholarly Society Vienna, with our partners and supporters from European academies of science and many world universities.

LET'S NOT FORGET THAT SCIENCE HAS ALWAYS SAVED THE WORLD IN DIFFICULT TIMES. THE GREATEST DISCOVERIES WERE MADE IN TIMES OF HUMAN CHALLENGE. SO, LET US UNITE, EVEN IN THIS DIFFICULT TIME, TO LEND A HAND TO SCIENTISTS FROM WAR-TORN COUNTRIES. LET US BE TOGETHER AND SHOW THE WORLD THE POWER AND GREATNESS OF

SCIENCE.

Welcome to join us this winter at the amazing Christmas Schönbrunn Palace and Vienna! Share your scientific achievements and take a well-deserved holiday [with your families and children](#).

Each of you has an [EMS account](#) (or can create a new one if attending a conference for the first time), where in addition to your account details, you can register for this year's event, upload your manuscripts, download a proforma invoice or make a credit card payment.

We inform you, that the conference proceedings of 2021 have been sent for evaluation and indexing of the most prestigious databases Scopus, Web of Sciences, EBSCO, ProQuest, Petroleum Abstracts, Crossref, RSCI/RINZ, Google Scholar, etc.

As a special compliment to you, and despite the global inflation, we kept the conference fees at the same level as in recent years. We hope this will help you and make it financially easier.

We look forward to seeing you this year at the Schonbrunn palace Congress Center in Vienna, where we shall devote ourselves to serious scientific discussions and presentations, [many interesting workshops](#), and a special social program for your Christmas relaxation.

And let's not forget that science has always saved the world in difficult times. The greatest discoveries were made in times of human challenge. Let us unite, even in this difficult time, to lend a hand to scientists from war-torn countries. Let us be together and show the world the power and greatness of science.

Main Scientific Sections

[Section Oil and Gas Exploration](#)

[Section Hydrology and Water Resources](#)

[Section Forest Ecosystems](#)

[Section Nuclear Technologies](#)

[Section Recycling](#)

[Section Air Pollution and Climate Change](#)

[Section Micro and Nano Technologies](#)

[Section Advances in Biotechnology](#)

[Section Green Buildings Technologies and Materials](#)

[Section Green Design and Sustainable Architecture](#)

[Section Modern Energy and Power Sources](#)

[Section Animals and Society](#)

[In focus: BIODIVERSITY CONSERVATION FOR SUSTAINABLE FUTURE](#)

[In focus: REDUCING CO2 EMISSIONS BY GREEN TECHNOLOGIES & INNOVATIONS](#)
