# XI INTERNATIONAL SCIENTIFIC CONFERENCE

Environmental Engineering – Through A Young Eye

26-27 May 2022

Białystok

ORGANIZERS

UNDER THE PATRONAGE OF

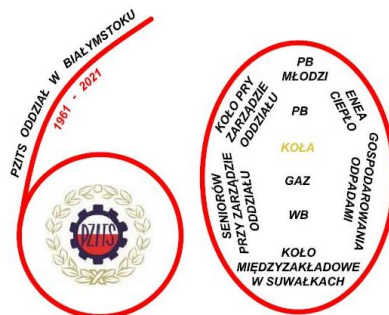

**The International Scientific Conference Innovations-Sustainability-Modernity-Openness (ISMO)** gathers the international community of scientists, engineers, managers, and professionals to summarize the recent scientific achievements and highlight the present and upcoming problems in the area of environmental engineering, technology, and science. ISMO provides an excellent platform for global participants to share and exchange novel research findings and experiences.

The primary goal of the Conference is to promote research and development activities in the discipline of environmental engineering. It aims to be a field for scientific information exchange between experienced researchers, engineers, and young scientists who take their first steps towards innovations. Furthermore, ISMO helps the participants to establish new research and business contacts for future international collaborations.

The annually held ISMO Conference is focused on presenting and publishing novel and fundamental achievements in environmental engineering, environmental protection, and energy areas. Due to the unpredictable COVID-19 pandemic, for health and safety reasons it is possible to attend in 11<sup>th</sup> edition of ISMO 2022 in a hybrid formula (on-site and online).

The conference is part of the celebration of the 60<sup>th</sup> anniversary of the PASET (PZiTS) Białystok Branch.

## Scope of the Conference

- ✓ sustainable urban development,
- ✓ sustainable urban systems,
- ✓ smart cities,
- ✓ air, water, soil and ecosystems protection,
- ✓ water and wastewater treatment,
- ✓ municipal and industrial waste utilization and recycling,
- ✓ environmental monitoring,
- ✓ problems of sustainable development,
- ✓ global and local climate changes,
- ✓ water supply and sewage disposal systems,
- ✓ issue of RES renewable energy sources,
- ✓ sustainable energy,
- ✓ high efficient heating systems,
- ✓ energy supply and network,
- ✓ low emission technologies,
- ✓ hybrid energy systems,
- ✓ energy storage technologies,
- ✓ energy-saving buildings,
- ✓ problems of modern heating networks and systems,
- ✓ energy and materials recovery technologies,
- ✓ ventilation and air-conditioning,
- ✓ low emission technologies,
- ✓ circular economy.

## Call for abstracts

The ISMO Organizing Committee **kindly invites experienced researchers, academics, entrepreneurs, young scientists, and science enthusiasts** to participate in the conference. Authors are requested to submit their applications for participation and the text of Proceedings via an electronic registration link according to the Conference schedule. The Proceedings must be written in English in the form of an MS Word file (Proceedings\_LastName\_FirstName.doc or .docx) according to the Proceedings template and sent to [wbiis.ismo@pb.edu.pl](mailto:wbiis.ismo@pb.edu.pl)
