
Fwd: Open Call Light.Move.Festival. 2021

**The call for projects to be presented during 11. edition
of Light.Move.Festival.is open for submissions!**

This year, Light.Move.Festival. is focusing on urban **green spaces**. We are looking for artistic projects that will unconventionally change the art of light in city parks: installations, lighting ideas and performative acts.

The invitation is directed to artists, light designers and other creators specialized in the art of light and visual arts.

Festival dates

Light.Move.Festival. will be held from September 24 to 26, 2021 in Łódź, Poland.

The art of connecting:

The main theme of this year's Festival is: **CONNECT**

The programme of the 11th edition of the Festival focuses on human beings, their place in the world, social, spiritual and artistic ties, real and virtual relations, and the condition of human contact in the face of the 21st century.

By connecting, we not only create diverse art, but also reach people in almost every corner of the world. We show the richness and beauty of our planet, the heritage of many cultures in a modern way. We connect despite and because of differences, revealing a palette of styles, values and means of creative expression. We connect the digital world with the analog world, creating modern and ingenious projects.

To participate in the LMF 2021 call for proposals, fill in the application form available on [the festival website](#) and send it to info@lmf.com.pl

The applications will be accepted until **February 10, 2021**.
