OVERVIEW

We want students to explore what architecture truly means and what it can achieve without any constraints. This competition encourages students to create unconventional and exceptional designs. The aim is to let your imagination run wild and design a breathtaking Visitors Center.

BRIEF

In this competition, we ask you to come up with a visionary concept for a Visitors center. When generating a vision for the center within a spectacular place, it is essential that each proposal emphasizes, respects and celebrates the site, while providing visitors with a unique experience. The Visitors Center aims to promote a unique experience within a remarkable landscape and provide a space for visitors to become engaged with the surroundings. The fundamental aspects of a visitors center should be incorporated into the design. Participants are free to select any site which will be best suited for their proposal. **This competition has no constraints and the brief is open to interpretation.**

PARTICIPATION

This competition is open for all architecture, planning, interior designing and graphic designing students.
*this includes the graduates of 2020

Registrations can be done individually or in teams of maximum 3 members.

Students are allowed to give multiple entries with separate registration of each design proposal.

To register go to – <u>www.architerrax.com/competitions</u>
