Dear Professor Nino Imnadze,

Herewith, we would like to thank you very much, also on behalf of the Politecnico di Milano, for your lecture given during the workshop:

**HERITAGE *WITHOUT* FRONTIERS**  
*Second edition – 2020*

Here below we would like to share with you the recordings of the lectures, carried on according to the programme that you can find in the next page. You will find a first link to the Microsoft Stream platform. That is the link accessible to all the students and professors of Politecnico di Milano interested in following the lectures.

Since probably that platform is available only for Polimi's user, you will find a second link that allows you to have access to a OneDrive folder where all the lecture have been uploaded in a .mp3 extension.
