

Institute of Hydrogeology and Engineering Geology

Scientific report

2013

Planned and performed scientific-research works funded by the state budget of Georgia by 2013

Engineering Geocology Department:

#	Title of the work	Work Supervisor	Work Performers
1	Development of Biochemical Method of Manganese from Jurassic Clay Shale (2013-2014)	Linetaa Tsertsvadze	D. Chutkarashvili Sh. Petriashvili M. Kopadze
#	Title of the work	Work Supervisor	Work Performers
2	On interconnection of laboratory and field examination results of the clay soil deformation module (2013-1014)	Guga Chokhonelidze	Z. Kakulia

Department of Hydrogeology:

#	Title of the work	Work Supervisor	Work Performers
1	Research on aggressiveness of the Enguri gorge waters on the development of suffosion processes in hydroelectric constructions	Berdi Zautashvili	Responsible performer: B. Mkheidze N. Zautashvili L. Glonti I. Nanadze

#	Title of the work	Work Supervisor	Work Performers
2	Study of the formation and distribution of mineral waters of Adjara-Trialeti region, cadastre processing and mineral water mapping.	Badri Mkheidze	B. Zautashvili N. Zautashvili L. Glonti I. Nanadze

Department of Sea Engineering Geology:

#	Title of the work	Work Supervisor	Work Performers
1	Study of the modern engineering and geological conditions of the Batumi-Gonio district coastal zone of the Chorokhi and Adjaristskali hydro-energy objects design.	Teimuraz Iashvili	G. Iashvili H Dzadzamia R. Chikhradze
