

Institute “Talgha”

Scientific report of 2017

Planned and executed scientific-research projects financed by the state budget of Georgia for 2017 (Concerns scientific –research institutes)

#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
1	The new model of renewing of current energy	M . Chiraqadze	SH. KhizaniShvili K. Giorgadze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
2	Development of new generation dosimeters for the purpose of continuous monitoring of environmental ecological conditions	Z. Chakhnakia	S. Paghava G . Japaridze Sh. Dekanosidze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Project performers
3	Exploring natural radio-active gas- spatial and tempotal distribution of radonium concentration in educational blocks , with the purpose of	Z. Chakhnakia	S. Paghava G . Japaridze Sh. Dekanosidze

	evaluating the risks of radonium on the health of staff and students.

#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Work supervisor	Work performers
4	Convexional generater operating on sun energy	K. GiorgadzeKKKK	N. Vachnadze N. Ushveridze
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Project supervisor	Project performer
5	Electronic spinner relaxation in anizotropic material in zero and low frequency field.	A N. Pokina	Sh. Dekanosidze N. Ushveridze G. Khubuluri
#	Work title completed and performed based on the plan by indicated scientific field and scientific direction	Project supervisor	Project performer
6	Water floating turbin model	M. Chirakadze	Sh. Khizanishvili K. gorgadze
