

Performers of the 2016 Winner Projects

Project Supervisor and co-performers (Scientific Unit)	Position	Faculty, Department, Direction	Project Title
Gerasimov - Project Supervisor, - Doctor of Physical and Mathematical Sciences, Professor K. Gorgadze - Doctor of Physics L. Matsaberidze V. Kldiashvili M. Vepkhvadze V. Khubierashvili Sh. Khizanishvili T. Ratiani	Project Supervisor. Doctor of Physical and Mathematical Sciences Manager, Department of Physics	Department of Physics	Establishment of a heater testing capacity with maximum coefficient of efficiency
A. Matchavariani - Master D. Maisuradze	Project Supervisor, Master at the faculty of Civil Engineering Scientific-training Center "Ecological Equipment"	Teaching-Scientific - Production Research Center "GTU - Ecological Equipment"	Describe the harmful impact of the number of refrigerator-agents and rubber disruptions on the environment and create a business plan for safe utilization research
A. moseshvili I. Simonishvili	Project Supervisor, Renewable Energy Research and Introduction University Center at GTU	Scientific-Research Center „ Renewable Energy Research and Introduction Center"	Establishment of an innovative duplex prototype comprising combined solar battery and winding device

	Renewable Energy Research and Introduction University Center at GTU		
A. Tchirakadze - Candidate of Physical and Mathematical Sciences G. Buachaidze (Senior scientific worker) L.Gurchumelia (scientific worker) D. Jishiashvili (scientific worker)	Project Supervisor, Faculty of Informatics and Control Systems. Director of the Teaching-Scientific Center for Engineering-Physical Problems	Department of Physics	Creation of the active prototypes of the highly-accelerated chemical-metallurgy complex industrial plant for industrial utilization of manganese monoxide of manganese ore enrichment
V. Kopaleishvili - Doctor of technical sciences	Faculty of Chemical Technology and Metallurgy Self-Financing "Teaching-Scientific Center for Material Properties" - Foundry production; Composite and Powder Materials, Covering, Processing.	Faculty of Chemical Technology and Metallurgy	Benite cast and its ability of its usage
T. Batsikadze (Doctor of Technical Sciences) L. Kobakhidze G. Dgebuadze	Project Supervisor, Director of the Scientific-Research Industrial Center "Controlled Cold Nuclear Synthesis" "Controlled Cold Nuclear Synthesis" Faculty of Transportation and Mechanical Engineering Project Manager	Scientific-Research Industrial Center "Controlled Cold Nuclear Synthesis"	Creating an efficient equipment of the controlled cold nuclear synthesis

Z. Ramazadze A. Mikaberidze V. Mamaladze	Scientific worker Scientific worker Main specialist		
T. Gabadadze - Doctor of Technical Sciences I. Suladze - Candidate of Technical Sciences, Full Professor	Faculty of Chemical Technology and Metallurgy Faculty of Chemical Technology and Metallurgy	Faculty of Chemical Technology and Metallurgy	Complex processing of the Black Sea water for obtaining medical and technical materials and their research
M. Kiknadze - Professor M. Janikashvili - Professor E. Baratashvili - professor I. Kveselava - Doctor of Historical Sciences St. Kveselava - Assoc. Prof. N. Lomidze - Assoc. Prof. ო. Soselia - Assoc. Prof T. Rostiashvili - Assoc. Prof	Project Supervisor, Faculty of Informatics and Control Systems Rector's Advisor Department of Economics Department of Politics and International Relations Department of Politics and International Relations	Faculty of Informatics and Control Systems	Development of the cognitive model of assessment of the effectiveness of the internal state regulation of the conflict with the consideration of social, political and economic factors
O. Zumburidze - Doctor of Technical Sciences, professor	Project Supervisor, Head of International Relations and Standards Service	Faculty of Power Engineering and Telecommunication	Automated system of evaluation of academic and scientific research activities of university professors

N. Chaduneli - Senior Teacher Z. Zurabishvili - Doctor of Technical Sciences M. Tavdoradze	Department of Informatics Quality Assurance Service		
J. Petriashvili - Professor D. Songulashvili – Department of physics, the Faculty of Informatics and Control Systems, GTU	Project Supervisor, Candidate of Chemical Sciences, Department of Chemistry Faculty of Informatics and Control Systems, Department of Physics	Faculty of Chemical Technology and Metallurgy	Virtual learning resource in chemistry
J. Gakhokidze - Doctor of Politics and Law Sciences S. Midelashvili - doctor of social sciences	Project Supervisor, Self-financing "Legal, Political and Economic Research Center of Conflict Settlement" of GTU Self-financing "Legal, Political and Economic Research Center of Conflict Settlement" of GTU	Scientific-Research Center - "Legal, Political and Economic Research Center of Conflict Settlement"	Precedents of conflict settlement and modeling of special state status of Abkhazia
J. Gogisvanidze - Inventor engineer K. Gogisvanidze - Engineer V. Talakhadze E. Gabashvili A. Kochoradze	GTU, Project Supervisor Project Manager, GTU Power engineer Engineer Electrician	Faculty of Power Engineering and Telecommunication	Establish a pilot sample of a permanent magnetic power equipment
