Collection of works of Institute of Management Systems named after Archil Eliashvili under Georgian Technical University

The findings of the research by the Institute's staff are mainly printed in the collection of works.

The works refer to the three main directions of the Institute: management theory, management systems, including management processes in energy systems and informatics.

- In the field of theory management the works cover vector optimization, mathematical programming, nonlinear identification and other problems
- The collection covers the principles of modeling and construction of specific systems of management, including at the current field, such as energy.
- In the fieldof informatics, they have presented issues related to artificial intelligence problems, different types of informative systems, tasks of computer representation of linguistic knowledge, text annotation issues etc.

The founder is Institute of Management Systems named after Archil Eliashvili; Date of establishment - 1997;

Editor-in-chief of the collection - Academician Mindia Salukvadze. (msaluk@science.org.ge; Tel .577430545);

Responsible Person - Mary Gegechkori (Tel .599943343; merigeg@gmail.com)

Members of the collection editorial team: V.Gabisonia (Deputy Editor), A. Bardavelidze, z. Gasitashvili, O. Labadze, L. Lortkipanidze, T. Magrakvelidze, M. Mikeladze, T. Trokashvili, Acad. A. Prangishvili, N. Kavlashvili, B. Shanshiashvili, G. Chikiodze, Z.Tsveraidze, N. Javashvili;

Collection of works of Institute of Management Systems named after Archil Eliashvili is published once per year. Circulation – 100. ISSN number, 0135-0765, date of awarding - 1997;

Electronic versions have been uploaded on the website of the Technical University Library: Electronic Journals http://gtu.ge/Library/Jurnalebi/

The magazine is distributed to: GTU library; Library of Institute of Management Systems, Library of the Department of Economic informatics; Techinform; National Parliamentary Library of Georgia Institute of Linguistics; Library of GTU Department of Informatics; Library of the National Academy of Sciences of Georgia, Department of Applied Mechanics, Mechanical Engineering, Energy and Management of the Georgian National Academy of Sciences.
