

Project PRINTel Innovation Pedagogy Methods Training Course in Georgian Technical University

Internal Teacher Training Course

„Active Learning in the Flipped Classroom“

On 11-15 March, 2019 at Georgian Technical University was conducted Training course on Innovative pedagogy method: Active Learning in the Flipped Classroom Method within the framework of Eurocommission funded Erasmus+ program project PRINTeL – Change in Classroom: Promoting Innovative Teaching & Learning to Enhance Student Learning Experience in Eastern Partnership Countries.

Preparation for the trainings

The course conducted Trainer - Assoc. Prof. Boris Gitolendia (GTU Faculty of Transportation and Mechanical Engineering), who had completed ToT course in Linköping University (Sweden) within PRINTeL project.

About TT - „Active learning in the Flipped Classroom“

The trainings lasted 5 days, each one with 2 hour-long sessions. 10 sufficiently overloaded and intensive working hours included different activities like sessions and lectures;

Active Learning Strategies: “Reflecting on Your Practice”

practical and group workshops; team and individual presentations and role games.

Group Works

The trainings also included redesigning of lecture courses and practical works in creating video lectures with MS PowerPoint.

Presentations

Active Learning Grid

The training course was entirely based on the experience of Linköping University and other international partners. GTU academic staff were attending the trainings and all participants who completed the course were awarded with appropriate Certificates.

Certification

The trainings were conducted in partnership with Teaching Staff Development Center of GTU Innovations Center (founded on the basis of PRINTel capacity building context) and GTU Center of Professional Development.
