

A Memorandum of cooperation was signed between Georgian Technical University and the University of MAKÜ

On September 8, 2022 within the international week a memorandum of cooperation was signed between Georgian Technical University and Burdur Mehmet Akif Ersoy University of Turkey.

The memorandum envisages deepening and promoting academic and scientific cooperation between the universities, as well as exchange programs for university professors and students, and participation in educational and scientific courses, joint conferences, cross-cultural studies and trainings.

The memorandum between universities was signed with the visit and participation of Georgian Technical University lecturer Tinatin Charkhalashvili.

Representatives from different universities participated in the international week. Within the framework of the visit, extremely interesting academic activities were also carried out and future partnership perspectives were planned with European university participants.
