

## Erasmus+ - GTU representatives STT Mobility at Gazi University (Ankara, Turkey)

On July 4-8, 2022, a member of Technology & Grants Projects office team of GTU Luka Kemoklidze, and Boris Gitolendia, an Assoc. Prof. at the Transport and Industry Management Department of the GTU Faculty of Transportation and Mechanical Engineering visited Gazi University (Ankara, Turkey) within Erasmus+ KA-107 mobility for training activities.

At Gazi university, GTU representatives held several business meeting with colleagues from International Relations Office, as well as the faculty and various administrative units of the host university.

At the meetings, issues of further cooperation between the two universities were discussed, within the scope of competence. GTU representatives participated in several discussions on various topics. Within the framework of the visit, all activities foreseen by the agenda, planned by the local international relations office, were carried out successfully. At the meetings, representatives of GTU made detailed presentations about the Georgian Technical University. The agenda also included tour around Gazi University campus, as well as city of Ankara.

The purpose of the visit was to facilitate the mobility of staff within the ERASMUS+, to strengthen international cooperation and internationalization. As well as to contribution to increasing the presence of GTU in international consortiums and projects. The visit to Gazi University was carried out within the Erasmus+ exchange programme, in which GTU participates and is coordinated by Gazi University (Turkey). It should be noted that the host university representatives underlined the success of the partnership between two institutions, therefore they expressed it was noted that Gazi University will announce mobility opportunities for GTU students and staff next year too.
